

Laser Module Specifications

Model: R650EFB

1. Narrow Line-width laser with integrated laser driver and TEC controller.
2. Shutter operation via a momentary switch
3. Excellent output power and wavelength stability.
4. Narrow spectral linewidth, ideal for Holography

Output Power: 30mW

Wavelength: 650 nm - 660 nm

Spectral Linewidth: $\ll 0.1$ nm

Coherence Length: > 1 m

Beam Divergence Angle: < 30 deg

Beam Diameter at Window: ~ 10 mm

Polarization Direction: Vertical

Power Supply: 5VDC included

Dimensions of Laser Head: 100 x 75 x 70 mm (L x W x H)
